The screenshot shows a patent search interface. At the top, there are buttons for 'Search', 'Refine', 'Reverse', 'Filter', and 'Clear'. Below these, a search criteria bar shows 'Cds' and 'US-PG-PUB, US-PAT, US-OCR, EPO, JPO, DERIVENT, IBM, TDB'. To the right, there are checkboxes for 'P Points' and 'Highlight all hit terms in abstract'. Below the search bar, the text 'Default processor: OP' is visible. The main content area displays a list of results, with the first entry being '13 and 14'. The interface has a light blue background with a grid pattern.
